TRON SYVERSEN CREATES NEAR-PERFECT NEW AGE MUSIC

TRON SYVERSEN is from Norway and is acknowledged as a pioneer in the Northern-European new age music community. In the past 15 years this pianist-keyboardist has created nine albums that have led him to the forefront of new age music. His latest CD is called PEACEFUL JOURNEY.

The music is relaxing, healing, meditative, healthful, stress-reducing, peaceful and melodic. Combining acoustic instrumentation with some synthesized sounds, plus wordless vocals, this is near-perfect new age music that makes for very pleasurable listening.

The nine tunes have titles that reference love, dreams and rivers. The CD packaging says, "Journey into a state of peace and total relaxation." But this music has something that many relaxation recordings do not have. It has listenability. Someone paying attention will enjoy the melodies and varied instrumentation. Samples and info are at [tronmusic\(dot\)com](http://tronmusic(dot)com).
