NEW AGE MUSICIAN TRON SYVERSEN MAKING HIGH-QUALITY MUSIC

TRON SYVERSEN  
PEACEFUL JOURNEY

In the past 15 years musician Tron Syversen has created nine albums that have led him to the forefront of the new age music field. His music serves as a sanctuary for relaxation, rejuvenation and well-being. His sound encompasses the best of traditional, classic new age music with his piano and keyboards backed by wordless vocalizing and top musicians on acoustic guitar, violin, cello, flute and English horn. His music is relaxing,

healing, meditative, healthful, stress-reducing, peaceful and melodic. This acclaimed series continues with the aptly-titled Peaceful Journey recording.

Based in Norway, Syversen is acknowledged as a pioneer in the Northern-European relaxation music community, but each year his music and influence has spread farther afield. Syversen's last CD, Piano Poems, went to #6 on the international monthly Top 100 Zone Music Reporter airplay chart making that album one of the most-played new age music recordings of the year.
