Peaceful Journey - Tron Syversen

In the past 15 years musician Tron has created nine albums that have led him to the forefront of the new age music field. His music serves as a sanctuary for relaxation, rejuvenation and well-being. His sound encompasses the best of traditional, classic new age music with his piano and keyboards backed by wordless vocalizing and top musicians on acoustic guitar, violin, cello, flute and English horn. This CD is relaxing, healing, meditative, healthful, stress-reducing, peaceful and melodic.
